

Supporting Personal and Public Involvement (PPI) in Health and Social Care Research

Impact of the PPI in Research Small Grant Scheme (2020 – 2025)

Number of Awards

25

Total Value of Awards

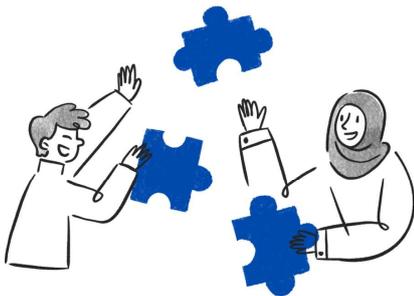

OVER
£60,000

Impact on People and Projects

Funding has been used to:

- set up PPI groups to help inform future research priorities and projects.
- support PPI contributors to attend conferences and training courses.
- support PPI initiatives which promote the value of PPI in research.
- support Equity, Diversity and Inclusion.

Feedback from Awardees

Ability to establish a sustainable, collaborative PPI panel at an early stage of programme development, fundamentally shaping the direction, relevance and quality of this research.

The PPI event highlighted that our focus and therefore research question required to be changed.

Enabled training opportunities for two PPI representatives that simply would not have happened without this award.

Enabled direct engagement with people with lived experience of cancer, allowing an opportunity to work together to design a workshop about PPI for early career investigators.
